Antwort

der Landesregierung

auf die Kleine Anfrage 1112 vom 6. Juni 2018
des Abgeordneten Norwich Rüße BÜNDNIS 90/DIE GRÜNEN
Drucksache 17/2787

Wie effektiv arbeiten amtliche Tierschutzkontrollen in Nordrhein-Westfalen?

Vorbemerkung der Kleinen Anfrage

Maßgeblich für die amtlichen Tierschutzkontrollen in Deutschland ist die Verordnung (EG) Nr. 882/2004 des Europäischen Parlaments und des Rates vom 29. April 2004 über amtliche Kontrollen zur Überprüfung der Einhaltung des Lebensmittel- und Futtermittelrechts sowie der Bestimmungen über Tiergesundheit und Tierschutz.

Die Verordnung gibt vor, dass nationale Behörden regelmäßig und in der Regel ohne Vorankündigung amtliche Kontrollen durchführen müssen. Sie sind verpflichtet, über ein ausreichendes, qualifiziertes und erfahrenes Personal sowie über adäquate Einrichtungen und Ausrüstungen zur ordnungsgemäßen Wahrnehmung ihrer Aufgaben zu verfügen. Die zuständigen Behörden müssen darüber hinaus gewährleisten, dass sie ihre Tätigkeiten mit einem hohen Maß an Transparenz ausüben. Zu diesem Zweck machen sie die ihnen vorliegenden Informationen der Öffentlichkeit so zügig wie möglich zugänglich. Damit amtliche Kontrollen nach einem globalen und einheitlichen Konzept vorgehen können, sollten die Mitgliedstaaten mehrjährige nationale Kontrollpläne erarbeiten und durchführen.

Trotz dieser Vorgaben, berichten Medien immer wieder über gravierende Missstände in tierhaltenden Betrieben in ganz Deutschland – so auch in NRW. Nach Meinung des Bundesamts für Verbraucherschutz und Lebensmittelsicherheit (BVL) ist das Kontrollsystem hingegen „ein wirksames Mittel (...), so dass grundsätzliche Änderungen derzeit nicht erforderlich sind“.¹ Dem entgegenstehen jedoch Aussagen einiger Veterinärbehörden, wonach in viehintensiven

¹ Jahresbericht 2016 der Bundesrepublik Deutschland zum mehrjährigen nationalen Kontrollplan nach Verordnung (EG) Nr. 882/2004.

Datum des Originals: 20.07.2018/Ausgegeben: 01.08.2018

Die Veröffentlichungen des Landtags Nordrhein-Westfalen sind einzeln gegen eine Schutzgebühr beim Archiv des Landtags Nordrhein-Westfalen, 40002 Düsseldorf, Postfach 10 11 43, Telefon (0211) 884 - 2439, zu beziehen. Der kostenfreie Abruf ist auch möglich über das Internet-Angebot des Landtags Nordrhein-Westfalen unter www.landtag.nrw.de

Landkreisen aufgrund fehlenden Personals nur in extrem langen Intervallen kontrolliert werden können.²

Die Ministerin für Umwelt, Landwirtschaft, Natur- und Verbraucherschutz hat die Kleine Anfrage 1112 mit Schreiben vom 20. Juli 2018 namens der Landesregierung beantwortet.

Vorbemerkung der Landesregierung

Die in der Beantwortung der gestellten Fragen beigefügten tabellarischen Aufstellungen über amtliche Kontrollen in Nutztierhaltungen beziehen sich auf Tierschutzkontrollen nach den Kontrollen gemäß der Richtlinien 91/629/EWG, 91/630/EWG, 98/58/EG und 1999/74/EG sowie der hierzu ergangenen Entscheidung der Kommission (2006/778/EG) vom 14. November 2006 hinsichtlich der Berichterstattung. Hinzu kommen weitere Tierschutzkontrollen, insbesondere Kontrollen nach dem „Cross Compliance Recht“, die in dieser Statistik nicht erfasst sind.

Die aufgrund der vorerwähnten EG-Richtlinie erhobenen statistischen Daten zeigen, dass die Kontrolldichte in Nordrhein-Westfalen durchweg über dem Bundesdurchschnitt liegt; die relativ höhere Kontrolldichte liegt überschlägig je nach Tierart und Haltungsform bei etwa 40% bis 70 % über dem Bundesdurchschnitt.

Die angefragten kreisbezogenen Daten beruhen auf einer Auswertung aus dem LANUV. Bei dieser Auswertung ergaben sich Fragestellungen, die punktuell fehlende Angaben und Implausibilitäten erkennen ließen. Diesen Sachverhalten wird fachaufsichtlich nachgegangen. Zur Intensivierung der Fachaufsicht wurden mit dem Haushalt 2017 vierzig Stellen neu im LANUV eingerichtet.

- 1. Wie häufig fanden im Jahr 2017 in Nordrhein-Westfalen amtliche Tierschutzkontrollen statt? Bitte unterscheiden zwischen Tierart und angekündigte/unangekündigte Kontrollen aufschlüsseln.**
- 5. Über die letzten zehn Jahre gemessen: Wie häufig wurden tierhaltende Betriebe in Nordrhein-Westfalen durchschnittlich im Rahmen der amtlichen Tierschutzkontrollen kontrolliert? Bitte nach Landkreisen und Jahr aufschlüsseln.**

Beide Fragen werden gemeinsam beantwortet, da sie sich auf die gleiche amtliche Kontrollstatistik beziehen; die erbetenen Angaben sind den digital zugesandten **Anlagen 1-10** zu entnehmen. Eine Aufschlüsselung zwischen angekündigten/unangekündigten Kontrollen wird bei der Dateneingabe nicht durchgehend erfasst und ist deshalb nicht möglich.

- 2. Wie häufig stellen die Kontrolleure bei den Kontrollen tierschutzrelevante Missstände fest? Bitte nach Landkreisen und Jahr aufschlüsseln.**

Auf die amtliche Kontrollstatistik der digital zugesandten **Anlagen 1-10** wird verwiesen.

² Beispielsweise <https://www.bbv-net.de/Lokales/Regionales/Kreisveterinaere-koennen-jeden-Hof-nur-einmal-in-zwoelf-Jahren-kontrollieren-89699.html>

3. *Wie häufig fanden im Jahr 2017 in Nordrhein-Westfalen amtliche Tierschutzkontrollen nach Hinweisen aus der Bevölkerung oder zivilgesellschaftlichen Organisationen statt?*

Eine Differenzierung des Anlasses für eine amtliche Tierschutzkontrolle im Sinne der Fragestellung ist in der amtlichen Statistik nicht vorgesehen. Insofern können hierzu keine näheren Angaben gemacht werden.

4. *Wie viele amtliche Veterinäre sind in Nordrhein-Westfalen mit den amtlichen Tierschutzkontrollen befasst? Bitte die Werte der letzten fünf Jahre einzeln nach Landkreisen aufgeschlüsselt benennen.*

Zur Beantwortung dieser Frage wird auf die **Anlage 11** verwiesen. Hierbei handelt es sich um das in der Veterinärverwaltung (in engerem Sinne) eingesetzte Kontrollpersonal, das mit amtlichen Tierschutzkontrollen befasst ist. Nicht in dieser Statistik enthalten sind Tierärztinnen/Tierärzte, die im Rahmen der amtlichen Lebensmittelüberwachung, der Fleischhygieneüberwachung oder in der Fleischhygiene-/Geflügelfleischhygiene eingesetzt sind, da diese in der Regel zumindest im Routinebetrieb keine Tierschutzkontrollen durchführen.

Danach ist das amtliche Kontrollpersonal in den zurückliegenden 6 Jahren um mehr als 15% erhöht worden. Gleichzeitig ging im gleichen Zeitraum allein im Bereich der Schweinehaltung die Anzahl der kontrollpflichtigen Betriebe zurück.

Bericht Kontrolle Nutztiere 2017

| Tierkategorie | | Legehennen | | | | Kälber | Schweine |
